

Required Courses

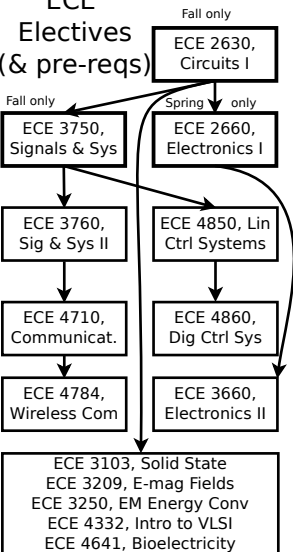

Legend:

Required
CS/ECE Elective

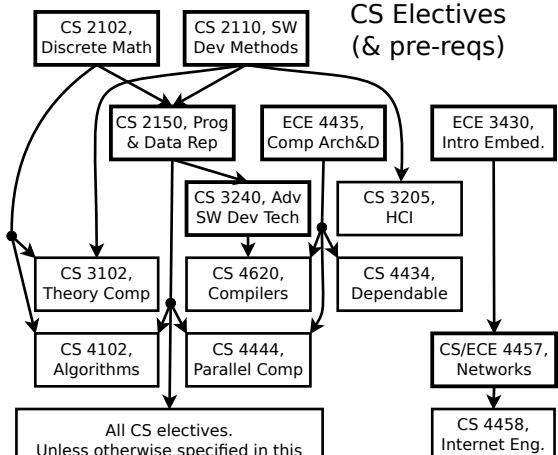

(one can place out of 1110 via a placement exam or AP credit)

ECE Electives (& pre-reqs)

CS Electives (& pre-reqs)

All CS electives.
Unless otherwise specified in this graph, the pre-req for all CS electives is just CS 2150. You can always check the full course descriptions for details. Note that 4 CS or ECE electives are required, two of which must be 4000-level or higher. An elective is any class not otherwise required for the major. CS 4993 may be taken for at most 3 credits. CS 4998 is in the BA program and does not count.

Special topics courses (CS 2501, 3501, and 4501) have content and pre-reqs that vary each semester
